How to search and access articles at the University of Osaka Libraries

We have now explained how to search for articles.
Next, we will show you how to access or obtain them.

How to access full text

Click **'Access options'** in Discovery Service to access the full text.

The screenshot displays a journal article interface. At the top, it indicates 'Peer reviewed | Academic Journal'. The article title is 'The *detection and significance of cystic fibrosis transmembrane* conductance regulator gene promoter mutations in Chinese patients with congenital bilateral absence of the vas deferens'. Below the title, the authors are listed as 'By: Song Bai; Xiaoliang Liu; Yuxin Tong; +2 more' and the journal as 'In: Gene, 2018 • OpenAIRE'. A brief abstract follows: 'Mutations in the *cystic fibrosis transmembrane* conductance regulator gene (CFTR) gene can be involved in the development of congenital bilateral absence of the vas deferens (CBAVD). This study was aimed at investigating mutations in the promote... Show'. The subjects are listed as 'Subjects: Male; 0301 basic medicine; 0303 health sciences; Base Sequence; +16 more'. At the bottom, an 'Access options' dropdown menu is open, showing three options: 'CINii Books', 'WorldCat', and 'Linked full text'. A green box with a bracket groups these three options, and a green text box to the right states: 'If you see labels such as Full Text, Open Access, or PDF, the entire content is available.'

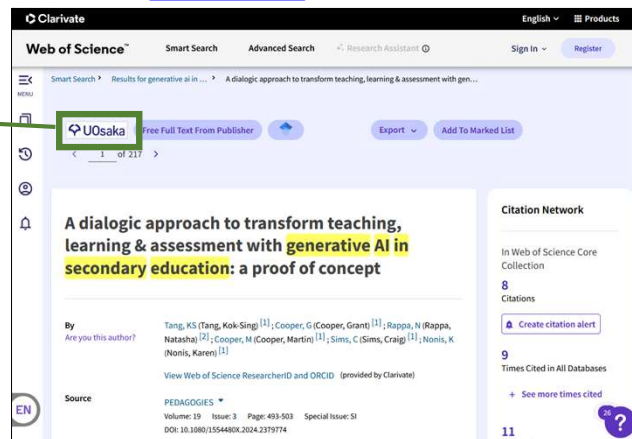

How to search and access articles at the University of Osaka Libraries

In Discovery Service, click 'Access options' to see if the full text is available. Labels such as Full Text, Open Access, or PDF indicate the complete content can be accessed.

Click the “UOsaka” icon

To access the full text, click on the  icon.

- **UOsaka Online Catalog(OPAC)**
- **Web of Science**
- **Scopus**
- **MEDLINE**
- etc.

How to search and access articles at the University of Osaka Libraries

Although databases are searching tools for articles information, you can't always use the full text of all contents. If you find the article you want, click on the “UOsaka” icon to check whether it is available through electronic journals and other resources subscribed to by the University of Osaka.

Check availability by using Full Text Finder

The screenshot shows the 'Full Text Finder' page for the article 'Generative AI in Chinese Early Childhood Education: Teachers' Usage Patterns, Perceptions, and Factors Influencing Pedagogical Applications' from the 'International Journal of Teacher Education and Professional Development (IJTEPD)'. The page is divided into five numbered sections:

- Section 1:** 'Web上でフルテキストにアクセスする (学内者限定) Access the Full Text (UOsaka members only)'. It lists search options like ProQuest Central and Unpaywall. A callout box explains: '[Access the Full Text] A link will appear if the electronic journal is available (through subscription or open access). Note: Pay attention to the availability range shown next to the link. Example: 2018-01-01 - 2019-12-31, 2021-01-01 - 現在'.
- Section 2:** '無料で利用できるフルテキストの検索を推す Search Free Full Text'. It includes links to Google Scholar, IRDB, and CINI Research.
- Section 3:** '大阪大学に電子版があるか探す Search Printed Version in UOsaka Libraries Catalog'. It includes links to search by ISSN or OPAC. A callout box explains: '[Search Printed Version in UOsaka Libraries Catalog] Clicking the link will search UOsaka OPAC.'.
- Section 4:** '学外から文献を取り寄せる(学内者限定) Use the ILL Service (UOsaka members only)'. It includes a link to the ILL service. A callout box explains: '[Use the ILL Service] From here, you can order photocopy delivery.'.
- Section 5:** '大阪大学以外にあるか探す Search Other Libraries' Collection'. It includes a link to search other libraries' collections.

At the bottom right, the text reads: 'How to search and access articles at the University of Osaka Libraries'.

When you click on “UOsaka” icon, “Full Text Finder” will appear.

On this web page, the content is divided into five sections. Please focus on three of them.

The first section is **“Access full text online.”**

Here, you can check whether the electronic journal is available.

Look at the availability range shown next to the link — any volumes and issues within this range can be accessed in full text.

If no link appears under “Access full text online,” check the third section **“Search Printed Version in UOsaka Libraries Catalog”**. Clicking the link will take you to Uosaka OPAC.

If neither the electronic nor the print journal is available, as a last option, use the forth section **“Apply for the ILL Service (Paid)”**. This is a service to request materials from other universities, called the ILL (Interlibrary Loan) service.

Summary so far

Accessing full text from database search results

- ✓ Click the full text link in the search results
- ✓ If there is no full text link or you cannot access it, try clicking the  icon.

By clicking the icon, you can search both electronic journals and print magazines together

How to search and access articles at the University of Osaka Libraries

To access the full text from database search results, first click the full text link.

If there is no link or you cannot access it from the link, click the icon.

By clicking the icon, you can search both electronic journals and print magazines at the same time.

How to find and use printed journals

The screenshot shows the 'Full Text Finder' page of the University of Osaka. The search results for the article 'Recruitment characteristics of nerve fascicles stimulated by a multigroove electrode' are displayed. The 'UOsaka' icon is highlighted with a green box and a green arrow pointing to it from the text 'Click the link for details.' in a green box. A red box highlights the 'Unavailable Online' status. A green box highlights the 'Printed Version in UOsaka Libraries Catalog' link. The interface includes a search bar, a list of search results, and a sidebar with navigation links.

Suppose you want to read this article. Click on the 'UOsaka' icon, and the 'Full Text Finder' will appear.
Although the article isn't available online, there are printed holdings at UOsaka Libraries.
Please click the link to go to UOsaka OPAC page.

How to find and use printed journals

The screenshot shows the journal details for "IEEE transactions on rehabilitation engineering". The page includes fields for Volumes(year), Publisher, Year, Size, Language, ID, NCID, and Online. Below this is a table of holdings with columns for Location, Volumes, Year, Call No., and Comment. A green box highlights the "Location" column, and an orange box highlights the "Volumes" column. A callout box points to the "Volumes" column with the text "Check available volumes and locations" and "※ Some titles are shelved separately." Another callout box points to the "Location" column with the text "Check the holding library".

Check the holding library

Check available volumes and locations
※ Some titles are shelved separately.

Location	Volumes	Year	Call No.	Comment
Main Library	1-8	1993-2000		
Life Sciences Library	2-4	1994-1996		

How to search and access articles at the University of Osaka Libraries

To find a journal issue in OPAC, first check the "Location" field. This shows you the library where the item is held. For example, "Main Lib." refers to the Main Library in Toyonaka Campus.

Next, check the "Volumes" section. This article is in volume 1, number 4. Be sure to verify if this specific issue is included in the library's holdings. You can click on the blue volume numbers to view detailed information about the location. If you click on the location name, you will also be able to see the map of the library.

If the journal you need is held in the library in another campus...

How to search and access articles at the University of Osaka Libraries

※ You may pay at public expenses if you get your professor's permission. Budget code is required.

You can order photocopy delivery

Next, I'll explain a convenient service.

If the journal article you need is held in the library in another campus, you can use this service. It's very easy.

In a OPAC page, click the "Copy" button.

After logging in with Osaka University Personal ID & Password, please enter the information of the article and select the counter to pick up the photocopy. It will be delivered within 3 weekdays, and you will be notified by e-mail when it's ready.

Please note that you will be charged for this service.

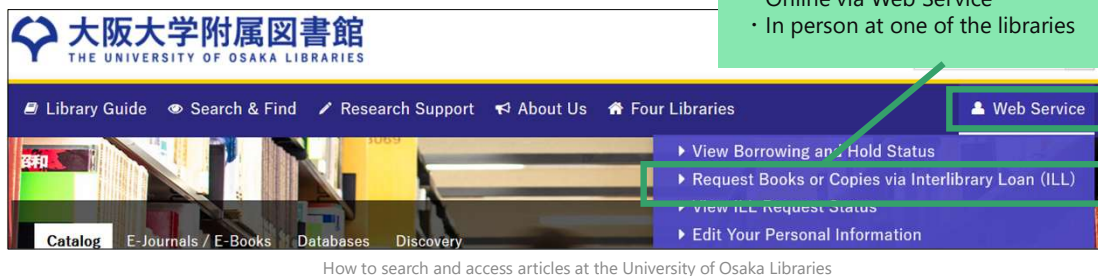

Request photocopy delivery (ILL : Interlibrary Loan)

B & W (per sheet)	Color (per sheet)	Delivery time
35-60 yen	100-200 yen	2-7 weekdays
★Shipping cost will be also charged.		

You may request photocopy of journal articles that are not owned by UOsaka from other universities.

Applications

- Online via Web Service
- In person at one of the libraries

In addition, you can place your photocopy delivery request of items that are not owned by UOsaka from other universities.
This service is also charged.
Applications can be made either online via web service or in person at one of the libraries.

Request photocopy delivery (ILL : InterLibrary Loan)

How to search and access articles at the University of Osaka Libraries

That's all for this section.

If you need more help, please come to the library desk.

Also, questions via email are welcome.

When you scan the QR code, the inquiry form will appear. We will send our response to your questions by email.

Learning Supporters (LSs)

LSs are graduate student staff in UOsaka Libraries.

They specialize in various fields and support your studies at the Learning Support Desks. Feel free to ask them for help.

★ Study Support at the Learning Support Desk

How to search and access articles at the University of Osaka Libraries

Finally, let me introduce the Learning Supporters (LSs).

LSs are graduate student staff working in the Main Library.

They provide study support at the Learning Support Desks.

If you have any questions about your studies or the library, please don't hesitate to visit the Desk.

We will be happy to help you.

That concludes the second section.

Thank you very much for your attention.
