This workshop is for Osaka University Members only.	

Please join Web of Science and EndNote basic training, if you struggle...

How can I find important articles?

How should I identify emerging areas of research?

How publications can be nicely organized?

Clarivate™

Web of Science – Your First Step to Research Discovery

- Understand what is the Web of Science
- How do you find papers related to your research?
- How do you identify emerging areas of research?
- Use Web of Science to identify potential collaborators and journals to publish in

EndNote basic

- How to save your publications
- Create and change format (using “Format” Bibliography and Format Paper)

Please apply at the library's website.
